PROFESSIONAL SUMMARY

MCA graduate with 6+ months of hands-on backend development experience building RESTful APIs and database-driven applications using ASP.NET Core, C#, and SQL Server. Microsoft .NET Full Stack certified (Faith Infotech, Technopark). Skilled in designing scalable APIs, writing optimized SQL and stored procedures, and integrating with Angular frontends. Seeking a Junior .NET Developer role to contribute to production-grade systems.

TECHNICAL SKILLS

Languages: C#, Python, SQL, T-SQL

Backend: ASP.NET Core MVC, ASP.NET Core Web API, REST API Development, Entity Framework Core, ADO.NET, LINQ, Dependency Injection

Frontend: Angular, HTML, CSS, JavaScript

Database: Microsoft SQL Server, Oracle, Stored Procedures, Database Design, Query Optimization

Tools & Concepts: Visual Studio, SSMS, Postman, Swagger, Git, GitHub, JWT Authentication, MVC Pattern, Debugging

WORK EXPERIENCE

Backend Developer — CodeApps Technology

Nov 2025 – Present

- Developing and maintaining RESTful APIs using ASP.NET Core for web applications, supporting multiple client-facing modules
- Writing and optimizing complex SQL queries, stored procedures, and joins for data processing and reporting workflows
- Debugging backend issues across API and database layers; resolving root-cause defects to reduce recurring error tickets
- Collaborating with Angular frontend developers on API integration, CORS configuration, authentication flows, and data contracts
- Maintaining data integrity through validation rules, transaction management, and database constraints

PROJECTS

Clinical Management System — ASP.NET Core MVC, Web API, Angular, SQL Server

- Built a full-stack hospital management application with modules for patient registration, appointment scheduling, billing, and staff management
- Designed RESTful APIs with JWT authentication and role-based authorization (Admin, Doctor, Receptionist)
- Developed a responsive Angular Single Page Application consuming the ASP.NET Core Web API backend
- Wrote stored procedures for CRUD operations, billing calculations, and report generation in SQL Server

Look-Based Media Player — Python, OpenCV, Tkinter

- Developed a hands-free, accessibility-focused media player controlled via real-time eye-gaze detection
- Implemented face and eye tracking using OpenCV with a Tkinter-based graphical interface

EDUCATION

Master of Computer Applications (MCA) — Mohandas College of Engineering and Technology, Kerala 2024 | CGPA: 7.45

BSc Computer Science — St. Alphonsa College of Arts and Science, Tamil Nadu 2022 | CGPA: 8.45

CERTIFICATIONS

- .NET Full Stack Development — Faith Infotech, Technopark
- Cloud Computing — NPTEL
- Introduction to Internet of Things — NPTEL
